MEMORANDUM FOR: Chief, CI Staff/DDP

ATTENTION :

SUBJECT :

Request for Additional UMY-20 Recorders

1. Preliminary testing of the UMY-20 Recorder Kit, released to this project by you during the first week of this month, have indicated that the recorder is suitable for our needs.

2. To equip the project to fulfill mission requirements, an additional three (3) kits will be required. It is understood that five (5) kits are presently in for rework and updating. It is realized that other operational projects are to be equipped with these recorders and that this project must compete with these other projects for priority in securing the kits.

3. As the urgency of the operational requirements and conditions for use have been outlined in previous correspondence they will not be repeated. I solicit your assistance in obtaining these kits for use in this very important project.
